bExact.

Designed and manufactured in Australia, we are delighted to introduce you to bExact as the only chair that truly knows you!

So simple and quick to adjust, bExact responds to your size and shape with a perfect fit.

If your chair happens to be shared with a co-worker, then in a matter of moments it can be readjusted to suit them in the same way.

Think of how much more comfortable you will feel with a back that supports the contours of your own shape, and how energised you'll be at the end of each day by sitting in a chair that follows your every movement?

It is so precise in its level of personal recognition, that it's actually Exact...

...how exciting is that!

THE ONLY CHAIR TO SUIT
95% OF EVERYONE

ABOUT THE RANGE

Our product range focuses on workplace health and safety, rehabilitation and everyday ergonomics

^bExact Console Heavy Duty

Designed and manufactured in Melbourne Australia, the Console has been developed to meet the growing demands of the 'Agile Working Environment'.

Finally, a chair where one size can fit all...

An elite concept that marvels in both its aesthetics and functionality is what sets the Console apart from all others.

Console features our unique and world-first adjustable posture support system. Available in three back sizes, with the option of an adjustable headrest and air-lumbar, the ^bExact Console Heavy Duty is the perfect choice for users needing a little extra support.

flexi.

flexi is a chair which welcomes you.

We have created a passive back-support system that simply moulds itself to the shape of each different operator.

It would be hard to find a more comfortable chair than one which simply wraps itself around the user and creates such a personal contact.

Allied with the moulding is a back support which then dynamically moves with you – wherever you choose to move at the workstation.

That is the essence of ergonomics!

Having a product which 100% adjusts itself to the user in whatever way that person elects to sit, move and then set themselves up in their environment.

A range of back-heights and widths combined with a choice of two functions – Flexi is a 100% Australian designed and developed chair that makes sitting an enjoyable experience.

THE ULTIMATE FIT-OUT CHAIR

ABOUT THE RANGE

Our product range for the agile and adaptive workplace, where Form and Function are optimal.

flexi

THE ULTIMATE

Portable and can be used in the car, at home, travel & hospitality.

THE flexi BARIATRIC

flexi Bariatric 250 & 300.

The flexi Bariatric chair has been specifically designed to cater to the heaviest of payloads featuring increased weight capacities, a unique twin gas operation mechanism, heavy duty supports and wider seat and back widths.

flexi Bariatric offers the full flexi 'Pre-Adjusted' Back Support System, on a strengthened chair and the exclusive Hygroflex foam that provides excellent support and weight distribution.

The flexi Bariatric can provide confidence when performing everyday tasks, as well as maintaining more independence, in and around the house or office environment.

HYGROTEQ FOAM TECHNOLOGY

The latest premium foam HygroTeq manages the twin challenges of temperature and humidity in one revolutionary foam grade.

HygroTeq can redistribute pressure more effectively than traditional memory foams, and diffuse body heat more rapidly than traditional viscofoams.
